

Aryan Chauhan

Software Developer

Noida – aryanchauhan9424@gmail.com – LinkedIn – GitHub – LeetCode – Portfolio
+91 9557573229

Professional Summary

Full Stack Developer specializing in the MERN stack with a strong foundation in Data Structures and Algorithms and experience building scalable web applications and RESTful APIs. Proficient in React.js, Node.js, Express.js, and MongoDB for developing responsive user interfaces and efficient backend systems. Passionate about solving real-world problems through clean, maintainable code and modern web technologies.

Technical Skills

Programming Languages: Java, JavaScript, SQL

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, Postman, VS Code

Projects

AI Resume Analyzer & ATS Optimizer

Live | GitHub

Feb 2026 – Apr 2026

- Developed a full-stack web application that allows users to upload resumes and analyze ATS compatibility based on job descriptions.
- Implemented features to calculate ATS scores, identify missing keywords, and provide actionable suggestions to improve resume ranking.
- Designed intelligent content improvement functionality to enhance resume bullet points and align them with recruiter expectations.

DineSpot – MERN Stack Web Application

Live | GitHub

Dec 2025 – Feb 2026

- Built a full-stack restaurant discovery platform using the MERN stack with dynamic search and filtering.
- Implemented CRUD operations to manage 100+ restaurant entries and improve content discovery.
- Developed RESTful APIs using Node.js and Express.js and integrated authentication for secure access.

SigmaGPT – AI Powered Text Generation Assistant

Live | GitHub

Jan 2025 – Feb 2025

- Built an AI-powered text generation web app using the OpenAI GPT API for context-aware responses.
- Integrated real-time prompt processing and designed a responsive interface for user interaction.
- Implemented backend logic using Node.js and Express.js to manage API requests efficiently.

Experience

Software Development Intern – YHills Edutech

Jun 2025 – Nov 2025

Developed full-stack web applications using the MERN stack including React frontend and Node.js backend.

Built responsive user interfaces and REST APIs to support efficient data communication between client and server.

Collaborated with developers in Agile-based project workflows to deliver application features.

Identified and fixed application bugs through testing and debugging to improve system performance.

Education

B.Tech – Computer Science and Engineering

2023 – 2027

Galgotias University

CGPA: 8.21

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Artificial Intelligence, Object Oriented Programming, Computer Networks, System Design

Additional Information

Achievements: Solved 200+ Data Structures & Algorithms problems on LeetCode

Certifications: Full Stack Development (YHills Edutech, 2025), Java (GUVI, 2024), Design Thinking (2024), Database (Oracle, 2024)

Core Strengths: Problem Solving, Debugging, Logical Thinking

Professional Skills: Team Collaboration, Communication, Time Management, Adaptability

Languages: English, Hindi
